

Scholarship Awareness

November is a month-long celebration surrounded by the values of giving, thankfulness and gratitude. How timely that “National Scholarship Month” is observed during November as well!

Our hard-working counselors in the high school office, Mrs. Snizek and Mrs. Zegarelli, love being high school counselors because they get to work with so many interesting students! Mrs. Zegarelli particularly “enjoys helping with undergraduate transition plans and supporting the Clinton student body through the rough parts of their adolescent journey!” Our supportive counseling office is equipped to respond to any and all college admission questions, guidance on course selection, and knowledgeable resources for scholarship submissions! Scholarships are known as a “financial aid award designed to help students pay for an undergraduate degree.”

These awards differ from student loans, as they do not have to be paid back. Among the many scholarships nationally, our superstar counselors have pulled a list of local financial aid awards! “I strongly encourage students to take advantage of local scholarship awards. These awards have been created by local community members and organizations and are easier to earn than other scholarships,” Mrs. Zegarelli says. Currently, GPO Federal Credit Union, Oneida Chapter NSDAR and Helmuth-

Ingalls have open enrollment for applications. Please use the link below to apply-

As students are hard at work submitting their college applications before the deadline approaches, remember to take it one step further and apply for a scholarship! Mrs. Zegarelli and Mrs. Snizek's doors are always open (virtually too) for guidance and conversation. After all, they are #Warriors too!
